Subject SETAC Abstracts for EPA Approval

Alice and Elizabeth

We would like to submit several abstracts for platform presentations and posters for the upcoming SETAC North American National Convention in Milwaukee this fall. I have attached abstracts for 4 papers/presentations and 2 posters which will be distributed among 3 or more different sessions (we are preparing 2 more presentation abstracts which I will send as soon as they are completed). All address topics related to Passaic River or Passaic River together with Newark Bay which are included in reports already made public or which will be public in a few weeks time. Abstracts must be submitted by this Friday June 1, so we would appreciate review at your earliest convenience. Please let me know if you have any questions. Thanks in advance for your help.
